

Looking beyond 2030

Give young people the opportunity to get real life experience and learn more about your skill or trade area! Become a *Try'aSkill* exhibitor at the 2018 CareersXpo! This year we will be exploring the skills and jobs up to and beyond 2030.

When: Wednesday 15 and Thursday 16 August

Where: Exhibition Park in Canberra (EPIC)

The CareersXpo is an annual event that attracts over 8000 visitors from Canberra and regional NSW. As part of the 2018 CareersXpo, we are again setting up a *Try'aSkill* exhibition where students can try their hand at various skill and trade areas. Exhibitors in 2017 included Australasian Beauty Therapy Academy, Robogals, Engineers without Borders, Surveying and Spatial Sciences Institute, ACT Tree Community, St John Ambulance, Canberra Institute of Technology, and Transport Canberra and City Services.

The cost of a *Try'aSkill* stall is free and exhibitors are provided with lunch, power, tables and chairs. We strongly encourage exhibitors to create a futuristic display if appropriate for their particular industry.
